EDUCATION

Bachelor of Science (Computer Science)
Narmada College of Science And Commerce (2024)
-Major in Java

Higher Secondary(12th)
Shree Dhanvantary International School (2021)

Second Secondary(10th)
Shree Dhanvantary International School (2019)

SKILL

Core Java	Database Management System (DBMS)	OOPs
Advance Java	Back-End Development	MySQL
Bootstrap	Html	

SUMMARY

Results-driven recent graduate with a strong foundation in Java programming and backend development concepts. Passionate about designing and developing scalable software applications using modern Java frameworks. Quick learner with exceptional problem-solving skills and a proactive attitude towards continuous learning and skill enhancement. Seeking a challenging role to kick-start a career in Java Backend development.

Project : -Hotel Management   **Technology Used** : - Java,MySQL,Netbeans IDE,Swing,JDBC

PROJECT Description: This project involves designing and developing a hotel management system that caters to the administrative needs of a hotel. The system allows hotel administrators to manage

various aspects of hotel operations, including guest check-in and check-out, room management, and billing.

Project : -

Phonebook

Technology Used : - Java,MySQL,Servelet,Jsp,Bootstarp,Html,Jdbc

PROJECT Description: Designed and developed a fully functional phonebook web application using [Java Language/Apache Tomcate]. The application allowed users to add, edit, delete, and search phonebook entries, showcasing my skills in database management and CRUD operations. Key features included:

- User authentication and authorization
- Secure data storage and retrieval
- Responsive design for optimal user experience
- Error handling and validation
